

**Memorandum of understanding to cooperate on
Multi-Level-Governance in energy planning between EVE and
AGENBUR**

Considering that the policy of the European Union sets for 2020 a target for renewable energy sources (20% of total energy production), energy efficiency (20% increase), CO2 emissions (20% reduction compared to 1990 levels) and biofuels (10% of total fuel consumed);

Considering that energy strategies have a relevant impact on social welfare and the environment, and need to be considered to build a society which is sustainable;

Considering the actions in the field of sustainable energy that have already been carried out in the region;

Considering that cooperation between regional and local authorities and other stakeholders is essential to improve the local and regional action on sustainable energy;

EVE and AGENBUR agree as follows:

Agreement

The collaboration between EVE and AGENBUR in the “Estrategia y planificación energética como clave para el desarrollo económico” for the development of sustainable energy in the region.

AGENBUR, will exchange experience with EVE on Multi-Level-Governance models in energy planning and will

- Implement one study visit to learn more about best practices in place and to exchange experience;
- Participate in evaluation of the process, giving feedback and information;

The Participants agree to allow EVE to document the activities carried out under this agreement as part of the activities of the Coopenergy Project of the Intelligent Energy - Europe (IEE) programme which has the objective of improving cooperation between regional and local authorities in sustainable energy planning through multi-level governance models.
